

Meen Patel

Education

Nirma University

B.Tech in ECE — PPI: 7.63/10

2021 – 2025

Ahmedabad, Gujarat

Experience

NXON AI Pvt. Ltd. | *Microcontrollers, espressif*

Dec. 2024 – Present

Embedded Systems Engineer

April 2025 – Present

Embedded Software Developer Intern

Dec. 2024 – April 2025

- Assigned key responsibilities included customizing and enhancing open-source firmware based on specific client requirements, encompassing user interaction features and system performance optimization.
- Developed a Gemini-powered project on ESP32 with speaker and microphone integration.
- Worked on vision module for drone along with a senior engineer

eInfochips | *Research*

Jun. 2024 – Jul. 2024

- I explored the applications of AI in electronics and researched a company that manufactures electronic products and provides solutions for wireless IoT connectivity.

Midas Metcons Pvt. Ltd. | *Embedded C, 8051*

Jun. 2023 – Jul. 2023

- I worked on technologies for automated storage systems and programmed it using microcontrollers and simulating techniques

Skills

KEY EXPERTISE: Embedded C, Embedded Systems, Circuit Design, Electronic Circuit Design, Image Processing, Assembly Language, Python, Arduino, MASM, ModelSim, MATLAB, Proteus, Firmware, Digital Electronics, 8051 Microcontroller, C, Keil, Automation, Industrial Automation, IoT, Communication Protocols.

Projects

Vertical Lift Module (Warehouse Automation)

Mar 2024 – May 2024

- Built control system on ESP32 with RTOS for improved task management and efficiency.
- Implemented IoT remote monitoring system.

MIPS Assembler in Python

Mar 2024 – Apr 2024

- Implemented a script that translates assembly instructions into machine code with error handling to demonstrate assembler functionality.

Image Modulation Using Sound (MATLAB)

Sept 2023 – Nov 2023

- Dynamically changed image based on sound frequency and amplitude.

Smart Irrigation with 8051

Mar 2023 – May 2023

- Designed digital irrigation using 8051 and Proteus simulation.

Achievements

AMD Pervasive AI Developer Contest

Feb 2024 – Aug 2024

Neuro Glove: Smart Rehabilitation Assistant

Hackster.io

Smart India Hackathon

Sep 2023

Regional Level Finalist

Nirma University

About

I am an Electronics and Communication Engineering graduate with a strong interest in core electronics, particularly in embedded system design. I have gained hands-on experience and am working on enhancing my skills through practical learning and real-world applications.
