BRIEF SUMMARY

Final year Electronics and Communication Engineering student. I have a strong interest in the core electronics domain, particularly in areas such as Embedded Systems. I am keen to learn and gain practical experience, constantly seeking new ways to improve my skills in these areas.

KEY EXPERTISE

Embedded C Embedded Systems Circuit Design Electronic Circuit Design Image Processing Assembly Language
Python Arduino MASM ModelSim MATLAB Proteus Firmware Digital Electronics 8051 Microcontroller C
Keil Automation Industrial Automation Internet of Things Teamwork

EDUCATION

Nirma University B.Tech - Electronics And Communication Engineering CGPA: 7.48 / 10	2021 - 2025
Vishwabharati English Medium School, Ahmedabad 12 th GSEB Percentage: 82.31 / 100	2021
Vishwabharati English Medium School, Ahmedabad 10 th Percentage: 83 / 100	2019

INTERNSHIPS

elInfochips, An Arrow Company Technology R&D Key Skills: Research I worked on how AI is useful in electronics and also researched a company that manufactures electronics products and provide solutions for wireless IoT connection.	01 Jun, 2024 - 12 Jul, 2024
MIDAS METCONS PVT. LTD. Infrastructure Embedded Trainee Engineer Key Skills: Embedded C Assembly Language 8051 Microcontroller Arduino Circuit Design I have worked on the technologies for automated storage system and coded the Vertical Lift Module (VLM).	15 Jun, 2023 - 15 Jul, 2023

PROJECTS

Vertical Lift Module Using Arduino Nano for Warehouse Automation Mentor: Viranchi Pandya, Sudhanshu Janwadkar Team Size: 2 Key Skills: Language: C Software: Arduino IDE Technology: IoT learnings : Internet of things , RTOS , Industrial automation • Designed and coded the VLM control system on Arduino Nano. • Integrating Real-Time Operating System (RTOS) for improved task management and efficiency. • Also implementing IoT capabilities to enable remote monitoring and control of the VLM.	01 Mar, 2024 - 30 Oct, 2024
Image change on the basis of song characteristics on Matlab Mentor: Ruchi Gajjar Key Skills: Language: Python Software: Matlab Learnings: Algorithm , Digital Image Processing • I effectively implemented criteria based on frequency and amplitude to change images dynamically. • I synchronized image changes with bass music when applied to a song.	01 Sep, 2023 - 20 Nov, 2023
Smart Irrigation System using 8051 Mentor: Mihir Shah Team Size: 2	15 Mar, 2023 - 01 May, 2023

Key Skills: Language: Assembly Software: Keil , Proteus Microcontroller: 8051 Learning: Electronic Circuit Design

Designed and developed irrigation system utilizing the 8051 microcontroller to automate and optimize water usage for agricultural applications.

ACHIEVEMENTS

- o Pervasive AI Developer Contest Neuro Golve : Smart hand Rehabilitation Assistant Hackster.io We are working on the development of the Neuro Glove project utilizing the resources provided by the AMD KRIA KR260 Robotics Starter Kit.
- o Smart India Hackathon, focusing on a solution for vibration analysis using the motion amplification video technique ,our team was selected at the college level from 100 teams
